

Demolition Breaker for Concrete and Masonry

This demolition breaker is designed for heavy-duty concrete and masonry work. It features a powerful motor, adjustable side handle, and durable construction for long-lasting performance.

Overview

High-Performance Demolition Solution

This industrial-grade demolition breaker is engineered for demanding concrete and masonry applications. With a robust 1300W motor and a high impact rate of 3800bpm, it provides the necessary power for efficient chipping and breaking tasks. The tool features a HEX chuck system and an ergonomic design to ensure reliable performance during heavy-duty demolition projects.

Performance Metrics

Key Performance Indicators

1300 W Input Power	20 J Impact Force	3800 bpm Impact Rate

Technical Specifications

Chuck System
HEX System

Operating Voltage | 220-240V~50/60Hz

Physical Properties

Net Weight | 6 kg

Logistics & Packaging

Packaging | Packed by BMC (Blow Mold Case)

Application Scope

Intended Applications

- Demolition
- Chipping
- Breaking

Suitable Materials | Concrete, Masonry, Brickwork
