

Demolition Breaker with Vibration Dampening

This demolition breaker is designed for heavy-duty concrete and masonry demolition. It features a robust motor, ergonomic handle, and vibration dampening system.

Product Overview

High-Performance Demolition Breaker

This powerful demolition breaker is engineered for heavy-duty concrete and masonry demolition tasks. It features a robust motor and a specialized vibration dampening system designed to reduce user fatigue and enhance productivity during extended use. With its ergonomic handle and durable construction, it is an ideal solution for breaking up concrete floors, walls, and other tough materials in professional construction environments.

Performance Metrics

Performance Metrics

3700 BPM

Impact Rate

750 RPM

No Load Speed

4.7 kg

Net Weight

Drilling Capacity

Maximum Drilling Diameters

Material	Capacity
Concrete	26mm
Wood	40mm
Steel	13mm

Technical Specifications

Operating Voltage	230V-50HZ
Vibration Control	Yes

Logistics & Packaging

Measurement	45.5 x 32.5 x 36 cm
Quantity per Carton	3 pcs

Product Features

Key Features	Vibration Dampening, Ergonomic Handle, Heavy-Duty Motor, Masonry Demolition
