

Demolition Hammer with Rubber Grip

This is a heavy-duty hammer designed for demolition and heavy hammering. It features a black head and a yellow wooden handle with a black rubber grip.

Product Overview

Heavy-Duty Demolition Performance

This demolition hammer is engineered for demanding tasks, featuring a robust head design suitable for heavy hammering, driving stakes, and demolition work. The tool is equipped with a specialized rubber grip on the handle to ensure operator comfort and improved control during extended use. Its durable construction makes it a reliable choice for professional construction and site preparation needs.
