Product Overview

High-Performance Derrick Crane

This derrick crane with jib pole is engineered for robust lifting operations, specifically optimized for roof deck applications. Featuring a high-strength lattice boom construction, it delivers an excellent strength-to-weight ratio for efficient load handling. The system includes advanced VFD control options and weather-resistant finishing to ensure reliability in demanding industrial environments.

Technical Specifications

Available Models

- DC1830
- DC3023
- DC4038

Power Supply Options

- 220V/60Hz
- 380V/55Hz
- 400V/50Hz
- 440V/60Hz

Paint Thickness

140 μm

Paint Thickness

Coating Type

UV-resistant, Weather-resistant polyurethane

Structure Finish

Hot-dip galvanized ladders and platforms

Operational Control

Control System	VFD control and ordinary speed control
Typical Use Case	Roof deck construction

Commercial & Compliance

Certifications CE • ISO • GOST • CU-TR	
Warranty	16 months
Delivery Time	10–35 days
Accepted Payment Methods	TT (Telegraphic Transfer), L/C (Letter of Credit)
Minimum Order Quantity	1
