

Desktop Computer Enclosure

This is a protective enclosure for housing the core components of a desktop computer. It provides structural support and facilitates effective thermal management.

Product Overview

Modern Vanity Lighting Solution

This modern two-light bathroom vanity fixture is designed to provide clean, ambient lighting for professional bathroom spaces. Featuring a sleek rectangular backplate with a distinct blue stripe, it combines aesthetic appeal with functional design. The unit utilizes two round, white glass shades to diffuse light effectively, making it an ideal choice for wall-mounted vanity applications.
