

Desktop Dumpling Wrapper Machine

The desktop dumpling wrapper machine efficiently produces dumpling and wonton wrappers. It can also press noodles when equipped with the appropriate mold.

Product Overview

Versatile Desktop Wrapper Solution

This desktop dumpling wrapper machine is designed for efficient and consistent production of dumpling and wonton skins. Featuring a durable stainless steel construction, it offers adjustable thickness and customizable sizes to meet various culinary requirements. By simply replacing the mold, operators can also utilize this equipment to press noodles, making it a versatile addition to small and medium-sized food businesses.

Technical Specifications

Model	FDDW-S
Power	310 W
Voltage	220V, 50Hz/60Hz
Weight	60 kg
Dimensions	850 x 350 x 430 mm

Performance Metrics

Production Capacity

3000 pcs/h

Double Row

1500 pcs/h

Single Row

Operational Details

Wrapper Size Options

- 7cm
