

# Detachable Hand Blender with Optional Attachments

This hand blender features a detachable plastic blending rod and a stainless steel blade. It offers two speeds and optional accessories including a whisk, chopper, mixing cup, and wall rack.

## Product Overview

### Versatile Kitchen Performance

This detachable hand blender set is designed for efficient food preparation, offering a powerful motor suitable for blending, chopping, and whisking. Its ergonomic design ensures comfortable handling during extended use, while the detachable attachment system allows for quick and easy cleaning. Perfect for professional or home kitchens, it reliably handles tasks from soups and sauces to smoothies.
