Product Overview

High-Performance Construction Component

This set includes a DH55 GP Tooth (18S) and a DH55-20 Top Pin Adapter, engineered specifically for heavy-duty construction machinery. Designed for durability and stability, these components feature a top-pin connection system that ensures a secure fit for demanding operational environments. The wear-resistant construction provides extended service life and consistent performance on the job site.

Technical Specifications

Tooth Model	DH55 GP Tooth (18S)
Adapter Model	DH55-20 Top Pin Adapter
Connection Type	Top Pin

Key Features

Key Attributes	Wear-resistant, High durability, Stable performance, Fine workmanship
