

# Diagonal Cutting Pliers

Diagonal cutting pliers are designed for cutting wires, small cables, and component leads. The angled jaws allow for flush cutting and access in tight spaces.

## Overview

### Professional Diagonal Cutting Pliers

These diagonal-cutting pliers are designed for precision cutting of wires, small cables, and component leads. Constructed from premium alloy steel with a hardened cutting edge, they offer exceptional durability and clean, flush cuts. The ergonomic double-dipped cushion-grip handles ensure user comfort and safety during extended use in electrical and electronics assembly tasks.

## Technical Specifications

Material Construction	Premium alloy steel
Surface Finish	Fully polished, Micro finish, Black nickel finish
Handle Design	Double-dipped cushion-grip

## Models and Dimensions

### Available Sizes
