

Diamond Core Bit Set with Centering Drill

This diamond core bit set is designed for creating precise and clean holes in hard materials. It is ideal for use in tile, glass, ceramic, and stone applications, providing smooth and professional results.

Product Overview

Precision Diamond Core Drilling

This diamond core bit set is engineered for creating precise, clean holes in demanding hard materials. The kit features a high-performance diamond-coated core bit paired with a dedicated centering drill bit to ensure accurate hole placement and minimize slippage. Designed for professional use, it delivers smooth, high-quality results in tile, glass, ceramic, and stone applications.

Technical Specifications

Included Components

- Diamond-coated core bit
- Centering drill bit
- Allen wrench

Suitable Materials

Tile, Glass, Ceramic, Stone

Performance Features

Key Features

Diamond-coated • Centering guide • Precision cutting
