Product Overview

Professional Diamond Core Drill Bit Set

This comprehensive diamond core drill bit set is designed for drilling clean, precise holes in challenging materials such as concrete, brick, tile, and stone. Featuring high-quality diamond segments, these bits ensure efficient cutting performance and extended service life. The entire kit comes organized in a durable aluminum carrying case, providing convenient storage and protection for all components during transport.

Technical Specifications

Core Bit Sizes (Diameter x Length)

- 107x 150 mm
- 52x 150 mm
- 28x 300 mm

Included Accessories

Component	Specification
Central Drill	10x 200 mm
Piecing Adapter	SDS-10 x 200
Piecing Adapter	HEX-12 x 80

Packaging & Logistics

Packaging	Aluminum box
