Product Overview

High-Performance Diamond Core Drill Bit

This professional-grade diamond core drill bit is engineered for precision and efficiency when working with hard materials. Featuring vacuum-brazed diamond technology, it ensures long-lasting performance and clean, accurate cuts. Designed specifically for dry cutting applications, it is the ideal tool for use with angle grinders on demanding projects involving porcelain, composite tiles, granite, and marble.

Technical Specifications

Maximum Speed

12200 RPM
Max RPM

Cutting Method

Dry Cutting

Drilling Diameter

6 mm

Thread Connection

M14

Manufacturing Technology

Vacuum Brazed Diamond

Color

Red

Compatibility & Usage

Compatible Materials

Porcelain Tiles, Composite Hard Tiles, Granite, Marble

Compatible Tools

Angle Grinders
