

# Diamond Cutting Blade

This diamond cutting blade provides high efficiency and long life. It features a durable steel core with diamond-impregnated segments for cutting tile, stone, and concrete.

## Product Overview

### High-Performance Diamond Saw Blade

This high-performance diamond saw blade is engineered for cutting a wide range of materials, including tile, stone, and concrete. Featuring a durable steel core with diamond-impregnated segments, it delivers fast, clean, and precise cuts while maintaining extended tool life. Optimized for both wet and dry cutting applications, this blade is designed to reduce vibration for enhanced user comfort and safety.

## Technical Specifications

Certifications	ISO9001
Configuration	9X30T

## Performance Features

### Cutting Compatibility

Wet Cutting • Dry Cutting

### Key Benefits

- High efficiency performance
- Long operational life
- Reduced vibration for user comfort
- Precision cutting capabilities
