Product Overview

High-Performance Diamond Cutting Blade

Engineered for precision, this diamond cutting blade is optimized for cutting ceramic and porcelain tiles. It utilizes advanced cold press sintering technology to deliver fast, stable, and chip-free cutting performance. Designed for versatility, it supports both wet and dry cutting applications, making it an essential tool for professional tile installation.

Technical Specifications

Compatible Equipment

- Tile saw
- Bevel-tile saw
- Angle grinder
- Circular saw

Manufacturing Process	Cold press sintered
Available Sizes	4 inch to 32 inch
Cutting Method	Dry Cutting, Wet Cutting

Compliance & Quality

Certifications

MPA • SGS

Quality Assurance	100% QC qualification on every manufacturing process
