

Diamond Cutting Disc for Hard Materials

This diamond cutting disc is designed for precision cutting of hard materials such as stone, tile, ceramic, and glass. The disc features a continuous rim with embedded diamond particles for smooth, chip-free cuts.

Product Overview

Precision Diamond Cutting Disc

This high-performance diamond cutting disc is engineered specifically for the precision cutting of hard materials, including stone, tile, ceramic, and glass. Featuring a continuous rim embedded with industrial-grade diamond particles, it ensures smooth, chip-free edges during operation. Designed for versatility and reliability, this tool provides efficient and accurate performance for both professional construction tasks and demanding DIY projects.

Technical Specifications

Compatible Materials	Stone, Tile, Ceramic, Glass
Rim Design	Continuous Rim

Compatibility

Compatible Power Tools

- Angle Grinders
- Tile Saws

Application Suitability

Professional • DIY
