Product Overview

Professional Grinding Performance

This single-row diamond grinding cup wheel is engineered for aggressive material removal and high-efficiency surface preparation. It is expertly designed to handle granite, marble, concrete, and various natural stones. Built with durable diamond segments, this tool ensures a long service life and reliable performance for both professional contractors and DIY projects.

Technical Specifications

Grinding Versatility

Dry Grinding • Wet Grinding

Suitable Materials

Granite, Marble, Concrete, Natural Stone

Performance Features

Product Highlights

- Aggressive material removal
- Durable diamond segments
- Efficient dust extraction design
- Compatible with standard angle grinders
