

Diamond Profile Grinding Wheel

This diamond profile grinding wheel is designed for shaping and profiling stone, concrete, and other hard materials. It features a segmented rim for efficient material removal and cooling.

Product Overview

Professional Diamond Profile Grinding Wheel

This diamond profile wheel is engineered for high-precision shaping and contouring of stone, concrete, and other hard materials. It features an advanced segmented rim design that optimizes material removal rates while simultaneously enhancing cooling during heavy-duty operation. Designed for compatibility with angle grinders and various power tools, it ensures consistent, high-quality results for diverse industrial profiling applications.

Technical Specifications

Compatible Tools

- Angle Grinders
- Power Tools

Key Features

Segmented Rim • Efficient Removal • Improved Cooling • Precision Profiling

Suitable Materials

Stone, Concrete, Hard Materials
