

Diamond Saw Blade for Abrasive Materials

This diamond saw blade is designed for cutting through a variety of abrasive materials, including green concrete, asphalt, and cinder brick. Its robust construction and diamond-enhanced cutting edge ensure efficient and long-lasting performance in demanding applications.

Product Overview

Professional Diamond Saw Blade

This high-performance diamond saw blade is engineered specifically for cutting through challenging abrasive materials. Its robust construction and diamond-enhanced cutting edge provide superior durability and efficiency, making it an essential tool for professional construction and demolition projects. Designed to handle everything from green concrete to asphalt and cinder brick, it ensures consistent results in demanding site conditions.

Applications

Compatible Materials

- Green concrete
- Asphalt
- Asphalt with concrete
- Cinder brick
- Other abrasive materials

Primary Applications

Construction, Demolition, Road Work
