

Diamond Saw Blade for Concrete Stone Masonry

This diamond saw blade is designed for cutting concrete, stone, and masonry materials. It features a segmented rim for efficient material removal and extended blade life and is suitable for use with angle grinders and circular saws.

Product Overview

High-Performance Cutting Solution

This diamond saw blade is engineered for demanding cutting tasks involving concrete, stone, and masonry materials. It features a specialized segmented rim design that facilitates efficient material removal, ensuring cleaner cuts and significantly extended blade life. Built for versatility, it is fully compatible with standard angle grinders and circular saws.

Technical Specifications

Diameter (Imperial)	12 in
Diameter (Metric)	300 mm
Rim Design	Segmented

Compatibility & Usage

Compatible Tools	Angle Grinders, Circular Saws
Suitable Materials	Concrete, Stone, Masonry

Safety & Compliance

Safety Requirements

- Always use with a protective guard
- Follow all provided guard instructions
- Observe rotation direction
- Failure to follow warnings can cause serious injury or death

Compliance

Safety Standards Compliant
