

Diamond Saw Blade for Hard Materials

This diamond saw blade is designed for cutting hard materials such as concrete, stone, tile, and masonry. It features a segmented rim for efficient material removal and cooling, ensuring a clean and precise cut.

Product Overview

Professional Diamond Saw Blade

This high-performance diamond saw blade is engineered for cutting demanding hard materials, including concrete, stone, tile, and masonry. Designed for construction, renovation, and demolition applications, it features a segmented rim that facilitates efficient material removal and optimal cooling. The robust diamond grit composition ensures exceptional durability and extended service life, even when subjected to heavy-duty usage.

Technical Specifications

Primary Usage

- Construction
- Renovation
- Demolition

Rim Type	Segmented
Suitable Materials	Concrete, Stone, Tile, Masonry

Performance Features

Durability

Heavy-duty • Long-life

Cooling Mechanism	Segmented rim design for heat dissipation
