

Diamond Saw Blade for Stone and Concrete

This diamond saw blade is designed for cutting hard materials such as concrete, stone, and tile. The blade features a durable steel core with diamond-impregnated segments for efficient and precise cutting.

Product Overview

High-Performance Cutting Solution

This diamond saw blade is engineered for high-performance cutting across demanding materials like concrete, stone, and tile. Featuring a durable steel core with diamond-impregnated segments, it ensures both precision and longevity. The blade is versatile enough to support both wet and dry cutting applications, providing consistent performance for professional construction tasks.

Technical Details

Cutting Mode

Wet Cutting • Dry Cutting

Blade Type	Segmented Rim
Compatible Materials	Concrete, Stone, Tile
Model Identifier	HP-CVN
