Product Overview

High-Performance X-Type Diamond Saw Blade

This X-Type diamond saw blade is engineered for aggressive yet precise cutting across a wide range of building materials, including concrete, granite, and masonry. Featuring a hot-pressed sintered segment design, it ensures clean cuts without burning, while the high-alloy heat-treated steel core minimizes vibration for smooth operation. Designed for versatility, this blade is compatible with standard angle grinders and marble cutters, making it an essential tool for professional construction and masonry tasks.

Technical Specifications

Available Diameters

- 105mm
- 110mm
- 115mm
- 125mm
- 180mm
- 230mm

Segment Height	10 mm
Segment Thickness Range	1.2 - 2.0 mm
Body Thickness Range	0.8 - 1.4 mm

Materials & Construction

Suitable Materials

Concrete • Reinforced Concrete • Granite • Sand-lime Stone • Brick • Masonry

Construction Materials	65Mn Steel, Diamond, Metal Powder
------------------------	-----------------------------------

Compatibility & Features

Key Performance Metrics

115 mm

Standard Diameter

22.2 mm

Standard Bore

Tool Compatibility

Angle grinders, marble cutters

Packaging Options

Available Packaging

- Color box
- White box
- Double blister
- PVC bag
- Blister card
