

# Diamond Solar Garden Light

This LED solar garden light features a diamond-shaped design for decorative outdoor lighting. It is powered by an integrated solar panel, charging during the day and automatically illuminating the LED at dusk.

## Product Overview

### Elegant Solar Garden Lighting

This diamond-style solar garden light combines aesthetic appeal with functional outdoor illumination. Constructed from durable stainless steel and ABS materials, it is designed to resist aging, rust, and scratches, ensuring longevity in various weather conditions. The integrated polysilicon solar panel allows for efficient charging, powering the LED light for up to 10 hours on a full charge, making it an ideal choice for pathways, lawns, and outdoor landscaping.

## Technical Specifications

### Battery Specifications

<b>1.2 V</b> Voltage	<b>600 mAh</b> Capacity
-------------------------	----------------------------

### Light Source

<b>0.2 W</b> Power Consumption	<b>40 mA</b> Current
-----------------------------------	-------------------------

### Minimum Charging Time

4 H

## Construction & Materials

### Durability Features

Anti-aging • Anti-rust • Scratch-resistant

### Materials

Stainless Steel, ABS

## Performance

### Lighting Duration

Up to 10 hours

## Identification

### Model Number

FSDC002A
