

Diaphragm Pump Cleaning Machine

This cleaning machine utilizes a diaphragm pump. It features adjustable air volume and a broad temperature range.

Overview

Professional Diaphragm Pump Cleaning System

This high-performance cleaning machine is designed for precision maintenance and repair tasks. Featuring a robust diaphragm pump system, it offers reliable airflow and consistent temperature control. With an adjustable temperature range and variable air volume, it provides the versatility required for professional-grade electronics and component cleaning.

Technical Specifications

Model Number	TT-702
Pump Type	Diaphragm
Power Consumption	520 W
