Product Overview

Smart DC LED Street Lighting

This high-performance LED street light is engineered with a robust die-cast aluminum housing, ensuring exceptional durability and superior heat dissipation for demanding outdoor environments. Designed for energy efficiency, it operates on DC power and integrates smart technology for advanced lighting control and cost-effective management. It provides a reliable, long-lasting, and energy-saving solution perfect for modern street lighting applications.

Technical Specifications

Housing Material	Die-cast Aluminum
Power Input	DC

Features

Key Benefits

- Efficient heat dissipation
- Energy-saving operation
- Long lifespan
- Suitable for outdoor environments

Smart Features	Smart Control, Dimming, Remote Control
