

Diesel Engine Crankshaft for F4L912

This crankshaft is designed for F4L912 diesel engines. It is manufactured for optimal engine performance and reliable power delivery.

Overview

High-Performance Diesel Engine Crankshaft

This precision-engineered crankshaft is designed specifically for F4L912 diesel engines, ensuring optimal power delivery and reliable operation. Built to meet rigorous standards, it serves as a critical component for engine rebuilds, repairs, and performance upgrades in heavy-duty machinery. Its durable construction ensures longevity and smooth operation even under demanding working conditions.

Technical Specifications

OEM Reference Numbers	04232749, 02931048
Compatible Engine Model	Deutz F4L912
Cylinders	4

Dimensions & Weight

Key Dimensions

31 KG

Weight

630 MM

Length

52 MM

Inner Diameter

115 MM

Outer Diameter

Packing Dimensions

230MM x 230MM x 660MM

Component Details

Gear Tooth Quantity	28
Number of Mounting Holes	10
Figther Diameter	8 MM

Applications

Compatible Applications

- Truck
- Forklift
- Tractor
- Excavator
- Skid Steer
