

Diesel Engine Cylinder Head

This cylinder head is compatible with models 967460, 3966448, 5258274 ISF3.8, 5258275 ISF3.8, 4BT 3966448, and 4942138 ISLE. It is a critical component constructed from durable materials to withstand high temperatures and pressures.

Product Overview

Heavy-Duty Diesel Engine Cylinder Head

This high-performance diesel engine cylinder head is engineered for durability and reliability in demanding industrial environments. Designed to withstand extreme temperatures and internal pressures, it ensures optimal sealing and efficient combustion for heavy-duty engines. Its precision-machined construction and integrated valve assemblies make it a critical component for maintaining engine power and longevity across various machinery applications.

Compatibility & Applications

Supported Machinery

Bus, Truck, Bulldozer, Excavator, Generator, Tractor, Marine Engine, Construction Machinery

Technical Details

Key Features

- Precision-machined coolant passages
- Integrated intake and exhaust ports
- Pre-assembled valve springs and retainers
- Rocker arm support provisions

Material

Cast Iron

Model Reference

4026541
