

# Diesel Engine Cylinder Liner for F4L1011

This diesel engine cylinder liner is designed for F4L1011 engines. It provides a durable and reliable solution for engine repair and maintenance.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Cylinder Liner for F4L1011 Engines

This precision-engineered cylinder liner is designed specifically for F4L1011 diesel engines to ensure optimal performance and longevity. Manufactured from durable iron steel, it meets or exceeds OEM specifications for a reliable fit and efficient heat dissipation. It is an essential component for engine maintenance and repair in various automotive and industrial applications.

## Identification & Compatibility

### OEM Reference Number

04179444

### Engine Compatibility

F4L1011

## Technical Specifications

Precision-engineered cylinder liner (OEM 04179444) featuring a durable iron steel construction and silver finish.

### Physical Properties

**1.05 kg**

Unit Weight

Material	Iron Steel
Finish Color	Silver

## Product Features

### Key Features

- Wear-resistant surface for extended service life
- Precision-engineered for exact fitment
- Efficient heat dissipation
- Durable iron steel construction

Applications	Diesel Engines, Automotive, Industrial, Engine Repair
