

Diesel Engine Fuel Injector

This fuel injector is designed for diesel engines. It ensures precise fuel delivery, contributing to optimal engine performance and fuel efficiency.

Product Overview

Precision Engineered Fuel Injection

This diesel engine fuel injector is designed to meet the exact specifications of original equipment, ensuring seamless compatibility and performance. Engineered for reliability in demanding automotive applications, it facilitates precise fuel delivery to optimize engine efficiency and maintain emission standards. Built with high-quality materials, this component serves as a direct replacement for consistent, long-term operation.

Technical Specifications

OEM Number	0211 3133
Compatible Truck Models	VOLVE, DEUTZ
Place of Origin	Brazil

Quality & Standards

Quality Grade	Original Quality
Material Standard	Original Equipment Specification
Dimensional Compliance	Yes
