

Diesel Fuel Injector Nozzle DLLA150P644

This fuel injector nozzle is designed for diesel engines. It provides consistent fuel delivery and reduced emissions.

Overview

High-Precision Diesel Injection Solution

This diesel fuel injector nozzle is engineered for multi-cylinder engines, providing a reliable alternative to original equipment parts. Manufactured from high-grade steel, it ensures optimal fuel atomization and combustion efficiency for standard stroke diesel systems. The component is designed to meet rigorous quality standards, supporting consistent fuel delivery and reduced emissions in professional automotive applications.

Technical Specifications

Body Material	Steel
Fuel Type	Diesel
Cylinder Type	Multi-cylinder
Stroke	Standard

Key Metrics

Physical Metrics

0.04 kg

Net Weight

6 Months

Warranty

Compliance & Quality

Quality Certifications	ISO9001, TS16949, ISO9001:2008
HS Code	84099199

Reference Data

Nozzle Type Reference Table

Item Type	Reference No.	Stumping No.
Diesel fuel Nozzle DN_PDN	105007-1120	DN0PDN112
Diesel fuel Nozzle P	093400-5500	DLLA160P50
Diesel fuel Nozzle S	0 433 271 376	DLLA149S774
Diesel fuel Nozzle DN_SD	0 434 250 898	DN0SD304
Diesel fuel Nozzle P	0 433 171 059	DLLA150P59
