

Diesel Fuel Injector Nozzle for Caterpillar Engines

This diesel fuel injector nozzle is designed for Caterpillar engines. It ensures optimal fuel atomization and combustion efficiency.

Product Overview

High-Performance Fuel Injection Solution

This high-precision diesel fuel injector nozzle is engineered for optimal fuel atomization and combustion efficiency, directly contributing to improved engine performance and reduced emissions. Manufactured from high-quality steel, it is designed for durability and reliability in demanding operating conditions. Precision-engineered for accurate fuel delivery, this component helps enhance engine responsiveness and overall fuel economy.

Technical Specifications

Body Material	Steel
Fuel Type	Diesel
Cylinder Configuration	Multi-cylinder
Weight	0.04 kg
Warranty Period	6 Months

Compliance & Standards

Certifications	ISO9001, TS16949
HS Code	84099199

Compatibility Reference

Reference & Stumping Numbers

Item Type	Reference No.	Stumping No.
