

Diesel Generator, 3kW-5000kW

This diesel generator provides a power range from 3kW to 5000kW. It can be used as a primary power source, feeding electricity to control panels for regulation and distribution.

Overview

Industrial Power Solutions

This diesel generator series offers a comprehensive power range from 3kW to 5000kW, catering to diverse industrial and emergency requirements. Engineered for reliability, these units are available in various configurations, including mobile trailers, low-noise models, and advanced remote-control systems. With extensive service support, these generators ensure consistent performance and rapid response for mission-critical power needs.

Technical Specifications

Power Output Range

3 kW Minimum Power	5000 kW Maximum Power
------------------------------	---------------------------------

Available Configurations

- Common stationary type
- Mobile power trailers
- Automation and remote control type
- Low-noise type
- Telemetry and remote inquiry units
- Multi-parallel units

Service & Support

Support Commitment	24-hour engineering problem resolution
Service Infrastructure	50 Branches
