

# Diesel Generator for Land Use

This diesel generator provides reliable performance and environmental protection. It is designed for energy saving, easy maintenance and continuous long operation time.

## ADDITIONAL IMAGES

## Product Overview

### Industrial Land-Use Diesel Generators

These industrial-grade diesel generating sets are engineered for reliable performance, environmental protection, and high energy efficiency. Featuring a robust build for land applications, they are designed for easy maintenance and sustained long-term operation. With a comprehensive global support network, these units serve as dependable power solutions for prime, standby, or continuous power requirements.

## Technical Specifications

### DCEC Series Power Range

**20 kW**

Min Power

**400 kW**

Max Power

**25 kVA**

Min KVA

**500 kVA**

Max KVA

### CCEC Series Power Range

**200 kW**

Min Power

**1300 kW**

Max Power

**250 kVA**

Min KVA

**1625 kVA**

Max KVA

### Operational Parameters

Parameter	Value
Frequency	50 Hz
Rotation Speed	1500 RPM

## Key Features

### Integrated Safety Systems

- Overspeed shutdown
- Low oil pressure protection
- Overload protection
- Short circuit protection

### Compatible Alternator Brands

Marathon, Sunvim, Stamford, Siemens
