

Diesel Generator KDE20E3D

The KDE20E3D diesel generator provides a reliable power source for various applications. It features a durable construction and efficient diesel engine.

Overview

Reliable Power Generation

The KDE20E3D is a robust diesel generator engineered for dependable power supply in industrial, commercial, and residential settings. It provides stable voltage and frequency output, making it suitable for both emergency backup power and continuous operation in off-grid environments. With its durable construction and efficient engine, this unit ensures reliable performance and longevity for critical applications.

Electrical Performance

Rated Frequency

- 50
- 60

Rated Current

- 25.3
- 27

Rated Voltage

400/230

Power Factor

0.8

Phase Number

Three phase

Engine Specifications

Rated Rotation Speed

- 1500
- 1800

Excitation Mode

Brushless self-excitation

Performance Metrics

Output Power Performance

Metric	50Hz (kVA/kW)	60Hz (kVA/kW)
Rated Output	17.5/14	18.75/15
Max Output	18/15	20/16
