

Diesel Generator Set

This diesel generator set provides a reliable power solution for diverse applications. Its exhaust emissions are compliant with EURO two, EURO three, and EPA standards.

Overview

High-Performance Power Generation

This diesel generator set offers a robust and reliable power solution engineered for diverse operational needs. Powered by a high-efficiency electronic fuel injection diesel engine, it ensures stable and consistent power output. Designed with environmental consciousness, the unit complies with international exhaust emission standards, making it suitable for demanding professional environments.

Technical Standards

Emission Compliance	EURO II, EURO III, EPA
---------------------	------------------------

Engine Specifications

Fuel Injection	Electronic Fuel Injection

Design & Build

Construction Features

- Heavy-duty construction
- Durable components
- Sturdy base frame for transport
- Integrated control panel

Monitoring & Control

Monitored Parameters

Voltage • Current • Frequency • Engine Status
