Overview

Reliable Power Generation Solution

This heavy-duty diesel generator set is engineered for consistent and efficient power delivery in demanding industrial and commercial environments. Designed with a robust engine and high-capacity alternator, it provides a stable electrical output suitable for prime power, standby power, and peak shaving applications. The unit features advanced control systems for comprehensive monitoring and protection, ensuring safe and dependable operation throughout its service life.

Technical Specifications

Protection & Safety

- Automatic Voltage Regulation (AVR)
- Overload Protection
- Low Oil Shutdown
- Control System Monitoring

Suitable Applications

Prime Power, Standby Power, Peak Shaving, Industrial, Commercial

Design & Construction

Enclosure Type

Sound-attenuated enclosure

Cooling System

Integrated radiator and fan

Base Frame Design

Transport-ready and easy installation
