Product Overview

Industrial Diesel Power Solutions

These diesel generator sets are engineered to provide reliable primary and backup power for a wide range of industrial and commercial applications. With a versatile output range, these units are designed for durability and consistent performance in demanding environments. Each set features integrated control systems and robust, soundproof enclosures to ensure efficient operation and ease of maintenance.

Performance

Power Output Range

8 kW

Minimum Power

1000 kW

Maximum Power

Control System

Control System Capabilities

- SmartGen digital controller
- Manual and Auto operation modes
- Emergency stop functionality
- Generator and transfer status indicators
- Alarm and running status monitoring

Construction & Design

Design Highlights

Soundproof Enclosure, Heavy-duty Construction, Integrated Ventilation, Maintenance Access Doors

Alternator Specifications

Compatible Alternator Types

- YHG
- TFW2
- STC
