

Diesel Generator Set, 50-500kW

This heavy-duty diesel generator set is designed for reliable power generation in various industrial applications. It features a robust engine, a high-efficiency alternator, and a durable frame for long-lasting performance.

Overview

Industrial Diesel Power Generation

This diesel generator series provides reliable power solutions ranging from 50kW to 500kW. Designed for versatility, the units are available in various configurations including mobile, low-noise, and automated systems to meet diverse operational needs. Known for efficiency and reliability, these generators are ideal for prime, standby, or emergency power applications.
