

Diesel Generator Set

This diesel generator set is designed for reliable power generation. It features an integrated control panel with indicators for generator status, transfer switch, and alarm conditions.

Overview

Reliable Power Generation

This industrial-grade diesel generator set is engineered for consistent and dependable power supply in demanding environments. Featuring a robust steel base frame with anti-vibration mounting and a durable stainless steel canopy, it is built to withstand rigorous use. The unit is designed for ease of mobility with integrated forklift slots and top-lifting points, ensuring it can be positioned effectively wherever power is needed most.

Technical Specifications

Excitation	Self-excited
Governor Type	Mechanical Governor, Electronic Governor
Radiator Ambient Capacity	50 °C

Construction & Design

Mobility Features

Top lifting points • Forklift holes

Canopy Material	2mm cold-rolled stainless steel
-----------------	---------------------------------

Fuel & Safety

Fuel Tank Runtime

8 hours

Runtime

Safety Systems

- Emergency shut down for low oil pressure
- Emergency shut down for high water temperature
- Flexible fuel lines
- Fuel tank drainage system

Electrical Components

Circuit Breaker	CHNT
Optional Equipment	ATS (Automatic Transfer Switch), Coolant heater, Oil heater
