

Diesel Power Generator Unit

This diesel power generator unit features a full control panel with indicator lights and emergency shutdown functionality. Its large fuel tank ensures continuous running with low noise and vibration.

Product Overview

Industrial-Grade Diesel Power Solution

This diesel power generator unit is engineered for reliable performance in demanding industrial and commercial environments. The system features a robust, compact structure designed for easy installation and low-maintenance operation. Equipped with advanced safety mechanisms, it ensures continuous power availability through a large fuel tank capacity and optimized noise and vibration control.

Technical Specifications

Safety and Control Systems

- Emergency shutdown for low oil pressure
- Emergency shutdown for high water temperature
- Power indicator light
- Oil pressure indicator light

Operational Advantages

Low Noise, Low Vibration, Compact Design, Easy Maintenance

Compliance and Quality

International Standards

CE • ISO 9001
