Product Overview

High-Performance Diesel Water Pump

This air-cooled diesel water pump is engineered for efficient water transfer in demanding agricultural, construction, and emergency management environments. Featuring a robust engine and durable pump housing, it delivers consistent performance and reliability for irrigation and drainage tasks. The unit is encased in a protective frame, ensuring stability during operation and ease of transport across various work sites.

Performance Metrics

Engine Type	Air-cooled diesel
Key Features	Air-cooled, Portable, Robust Frame, Drain Plug

Technical Details

Suitable Applications

- Agricultural Irrigation
- Drainage
- Construction Water Management
- Emergency Water Transfer

Maintenance Features

Easy Drain Plug • Threaded Inlet/Outlet
