

Digital Air Fryer with LCD Control

This air fryer cooks food by circulating hot air, creating a crispy exterior with less oil. It features a digital display for precise time and temperature control, along with a removable basket for easy cleaning.

Overview

Healthy & Efficient Cooking Solution

This Digital Air Fryer utilizes high-speed hot air circulation to deliver crispy, fried results with little to no oil, saving up to 50% in time and energy compared to traditional methods. Featuring a sophisticated PPS housing with 260-degree heat resistance and a silver-painted front face, it combines durability with a premium aesthetic. The intuitive LCD control panel and multi-function menu memory make it an essential, high-performance appliance for modern B2B kitchenware portfolios.
