Overview

Advanced Evaporative Humidification

The HCX-H603T is a high-performance evaporative humidifier designed for modern living and working spaces. Featuring a 4L large-capacity tank and a visible water level window, it provides consistent moisture output of 250ml/hour to cover areas up to 30 square meters. The unit combines essential air quality functions like UV degerming and humidity control with user-friendly features such as a sleep mode and top-fill design.
