

Digital Body Composition Analyzer Scale

This digital scale measures body composition using BIA technology. It accurately measures body fat, muscle mass, water percentage, and bone density.

Product Overview

Advanced Body Composition Analysis

This digital scale utilizes advanced Bioelectrical Impedance Analysis (BIA) technology to provide a comprehensive view of your health metrics. Designed for accuracy and consistency, it measures weight, body fat, muscle mass, water percentage, and bone density. The sleek, durable design features a clear blue LCD display, making it an ideal tool for monitoring body composition changes over time.
