Overview

Comprehensive health tracking with 18+ indicators, high-precision sensors, and seamless mobile app integration.

Comprehensive Health & Body Composition Analysis

This Digital Body Composition Scale is a professional-grade health monitoring solution designed for accurate and comprehensive body analysis. Utilizing advanced BIA biometric technology and four high-precision sensors, it tracks over 18 essential health indicators including BMI, muscle rate, and bone mass. With seamless Bluetooth connectivity and multi-user support, it serves as an ideal tool for fitness tracking and personal health management in a modern B2B or retail environment.

Measurement Capabilities

Tracked Health Indicators

Body Weight, Body Fat Percentage, Body Water, Muscle Mass, Bone Mass, BMI, Muscle Rate

Technical Specifications

Sensor Technology	4 High-precision sensor system with BIA biometric technology
Product Dimensions	319 x 319 x 24 mm
Supported Units	kg, lb, st

Connectivity & Compatibility

Smart Features

- Bluetooth connectivity for data synchronization
- Compatible with iOS and Android devices
- Syncs with Google Fit, Fitbit, and Health Fit
- App control supporting 14 languages
- One-click social media result sharing

Display & Interface

System Indicators

Auto-Off • Auto-Zero • Low-Battery • Overload

Display Type	Backlit LCD display with white digits
--------------	---------------------------------------

Power & Safety

Power Supply	4 x AAA batteries (included)
Safety Features	Ergonomic rounded corners to prevent injury
