Product Overview

Comprehensive Body Composition Analysis

This advanced digital scale utilizes BIA biometric technology to provide a detailed analysis of your body composition. With the ability to measure seven distinct body values including body fat, hydration levels, muscle mass, and bone mass, it serves as an essential tool for health monitoring. Designed for convenience, the scale supports up to 10 user profiles, making it an ideal choice for family use.

Technical Specifications

Detailed diagram of the BIA technology and multi-user profile setup.

Capacity	180 kg
Measurement Division	100 g
Dimensions	300 x 300 x 21 mm
Platform Material	6mm Tempered Glass
Power Supply	1x CR2032 Lithium Battery

Measurement Features

Functional Features

- Step-on technology
- Auto-off feature
- Overload indication
- Low battery indication
- High-precision strain gauge sensors

Measured Metrics

Weight, Body Fat %, Body Water %, Muscle Mass, Bone Mass, KCAL, BMI
