Overview

Comprehensive Health Tracking

This advanced digital body composition scale uses high-precision strain gauge sensors and BIA technology to provide detailed insights into your physical health. It measures seven key metrics including weight, body fat, water percentage, muscle mass, bone mass, and BMI, offering a holistic view of your fitness progress. Designed with a sleek 6mm tempered glass platform and a clear LCD display, it combines durability with user-friendly operation for home or professional environments.

Technical Specifications

Capacity and Division

180 kg Maximum Capacity	100 g Division
-----------------------------------	--------------------------

Platform Dimensions	300 x 300 x 21 mm
Power Supply	1 x CR2032 lithium battery
LCD Display Size	30 x 73 mm

Features

Detailed breakdown of BIA technology and multi-user memory capabilities.

Smart Features

- Step-on technology
- Auto-off feature
- Overload indication
- Low battery indication
- High-precision strain gauge sensor
- Multi-unit support (KG/LB/ST)

Measured Metrics

Weight, Body Fat %, Body Water %, Muscle Mass, Bone Mass, BMI, KCAL
