Overview

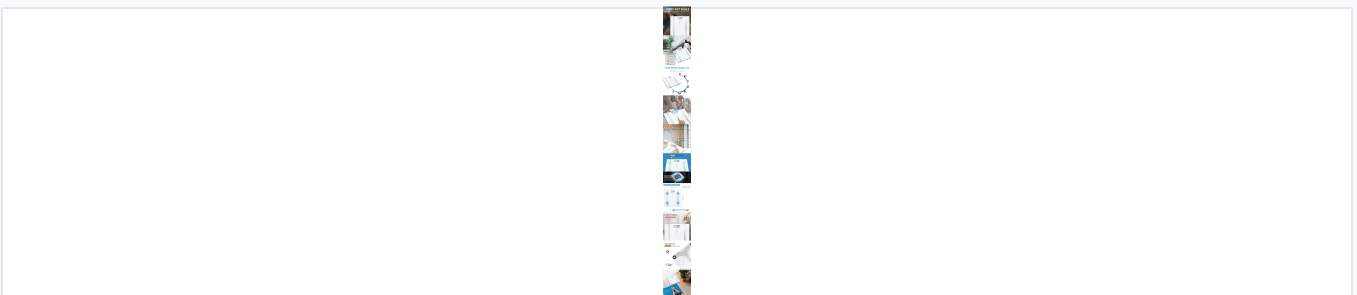

Diagram detailing measurement metrics and sensor technology.

Comprehensive Health Monitoring

This advanced digital body composition scale provides precise tracking for your health and fitness journey. Utilizing high-precision strain gauge sensors and bioelectrical impedance analysis (BIA) technology, it delivers consistent measurements for weight and various body composition metrics. Designed for convenience, the unit supports memory for up to 10 distinct users, making it an ideal choice for households.

Performance

Weight Capacity

180 kg
Capacity

396 lb
Capacity

Metrics Measured

Weight, Body Fat %, Body Water %, Muscle Mass, Bone Mass, BMI, KCAL/BMR

Measurement Division

100 g

Hardware

Platform Dimensions	300 x 300 x 21 mm
Display Size	30 x 73 mm
Platform Material	6mm Tempered Glass

Features

Smart Features

- Step-on technology
- Auto-off functionality
- Overload indicator
- Low battery indicator

User Profiles	10
