Product Overview

Smart Weight Tracking with Visual Feedback

This digital body weight scale features an innovative three-color indicator system that provides immediate visual feedback on weight trends compared to your last recording. Designed for precision and safety, it includes high-precision strain gauge sensors and a low center of gravity to prevent rollover. The large LCD display and integrated BMI calculation make it an essential tool for health-conscious users seeking clear and actionable data.

Key Performance Metrics

Performance Highlights

180 kg Maximum Capacity	0.1 kg Division	319 mm Platform Width
-----------------------------------	---------------------------	---------------------------------

Visual Indicator System

The scale features a comprehensive visual system for tracking weight trends and BMI status.

Weight Trend Indicators

Color	Meaning	Threshold
Green	Stable Weight	+/- 0.5kg from last record
Blue	Weight Loss	More than 0.5kg less than last record
Red	Weight Gain	More than 0.5kg higher than last record

Technical Specifications

Sensor System	High-precision strain gauge sensors
Display Type	LCD Display
Display Size	91 x 44 mm
Scale Dimensions	319 x 319 x 24 mm
Power Supply	3 x AAA lithium batteries

Smart Features

Core Features

- BMI (Body Mass Index) calculation
- Auto-zero resetting
- Auto power-off function
- Overload indication (oL/Err)
- Low battery indication (Lo)
- Fillet grinding for safety
- Low center of gravity design

Supported Units	kg, lb
