Product Overview

Professional Digital Caliper

This high-precision digital caliper is crafted from durable stainless steel, designed for reliable measurements in engineering, machining, and woodworking environments. It features a large, easy-to-read LCD screen with metric and inch conversion capabilities, allowing for seamless workflow integration. With four-way measurement functionality and a smooth-action thumb roller, it provides the accuracy and versatility required for professional quality control and DIY projects.

Technical Specifications

Available Measuring Ranges

- 0-150mm
- 0-200mm
- 0-300mm

Material	Stainless steel
Accuracy	0.01 mm
Measurement Capabilities	OD, ID, Step, Depth

Features & Functionality

Display Type	Large LCD screen with 3 or 4 buttons
Metric/Inch Conversion	Yes
Zero Setting	Yes
Thumb Roller	Yes

Logistics & Customization

Production Lead Time	35-45 days
Custom Logo Printing	Available (MOQ 500pcs)
Packaging	Plastic Box
